Beatle Woods Flexi-Ed, Home-Ed and Reception year

In January 2019 we decided to gain some advice about the potential for offering flexi-ed, home-ed and reception year places at Beatle Woods. We asked Dandelion Education Ltd to come to our site and consult with us about how this might work. We committed to a development plan and started to work on developing this offer further.

At Beatle Woods we have developed a unique way of working with all of our families; we believe that offering Flexi-Schooling is a natural way to develop our truly child-centred approach further.

Essentially this means facilitating sessions so that children can attend BW for 2/3 days and attend a mainstream setting or are home schooled for 2/3 days per week.

This approach works extremely well for:

- Children who may not be ready to be in mainstream school and would benefit from a slower phasing into school. This gives them more 'time' to develop at a pace that suits them, and they can enter school when they are actually ready.
- Some children who may need a little more support and could struggle to cope with being in a classroom full-time.
- Children who prefer an alternative, more active, outdoor based, child-led approach to learning, for a little longer.
- Children who are going to be home educated and would like to spend time outdoors with other children and facilitators.

We have been successfully offering our flexi-ed and home-ed since September 2020. We have very limited spaces for children to attend BW for a maximum of 17 hours and 45 minutes per week up to the age of 12 years. Below are examples of how this might work:

1. Children who are in mainstream school will be able to spend 2/3 days a week with us, (with the remaining days in school) in a group of 15-20 children, led by qualified Forest School leaders and experienced practitioners.

2. Children who are home educated will be able to spend 2/3 days a week with us whilst spending the rest of their week being home-educated or in a school environment.

3. We already provide care for families who chose to defer their child's entry to school in our nursery setting. This can be in several instances; they are summarised below, but for more information, see our separate leaflet 'Options for deferring entry to Reception and School'.

- If your child is summer born (after 31st March), you can defer their start into school, and they can enter Reception in the September after they turn 5. Your child will remain eligible for 3 and 4 year old funding until they enter school.
- If your child is not summer born (born in the academic year before 31st of March) you can still opt to defer entry into year one or choose to home school. The funding will cease in the term following your child's 5th birthday.
- We accept children into the flex group at Compulsory School Age (CSA) which is the term **after** they turn 5 years old.

The focus is firmly on exploring the benefits of being outdoors and working alongside children in their own interests. We are not a school or alternative provision and we do not follow the National Curriculum. We offer experiences of child-led and self-directed learning as we do in our nursery.

Our Flexi-Ed and Home-Ed group places are allocated by giving priority to existing children at BW. We always ensure that for any children joining the group, we are suitable for their individual needs and that we take account of the existing cohort before offering a place. Fees for this group are £47 per day.

We are working with a number of schools, academies and independent specialist provision to offer blended approaches. Please ask us for details.

If you would like your child to remain at BW nursery for their reception year, this is now possible, and we would recommend you advise us as soon as possible so that we can ensure we save their sessions.
